

M. HANIF MULYAZAM

Data Scientist — Machine Learning, NLP, Computer Vision

Tangerang Selatan, Banten, Indonesia | +62 812-2093-6801 | hanifmulyazam27@gmail.com | GitHub: github.com/hanifmulyazam-hub |
Portfolio: hanifmulyazam-hub.github.io

EXECUTIVE SUMMARY

Data Science graduate (Telkom University, GPA 3.08/4.00) with hands-on, production-oriented experience across data engineering, cloud deployment, machine learning, NLP, and computer vision, built through a Data Engineer internship at PT. Entropi Global Martech, a Data Analyst internship at PT Pos Indonesia, and eight end-to-end applied projects. Combines strong technical execution in pipeline orchestration, cloud/containerized deployment, data cleaning, model building, evaluation, and dashboard/prototype delivery with proven cross-functional leadership from coordinating a national/international award-winning choir division. Ready to drive data-informed decisions in an analytics, data engineering, or AI/ML-focused role.

CORE COMPETENCIES

- Data Pipeline Engineering & Workflow Orchestration (Apache Airflow)
- ETL/ELT Automation & Incremental Data Processing
- SQL / MySQL / PostgreSQL & Database Management
- Caching & In-Memory Data Store (Redis)
- Computer Vision (YOLOv8, OpenCV, ByteTrack)
- Machine Learning (Scikit-learn, XGBoost)
- Generative AI & LLM API Integration (OpenAI API)
- NLP & Text Classification (TF-IDF, SGDClassifier)
- Model Evaluation & Time Series Forecasting (ARIMA)
- Business Intelligence & Dashboarding (Power BI, Streamlit)
- Data Visualization & Storytelling (Tableau, Matplotlib)
- Cloud & Containerization (AWS, GCP, Docker)
- Stakeholder Documentation & QA Testing
- Team Leadership & Cross-functional Collaboration

CERTIFICATIONS & LICENSES

- Data Science Methodology — IBM (Issued Jul 2026), Credential ID: EB3IW5UM7N3Q. Skills: SQL, Python
- Python for Data Science, AI & Development — IBM (Issued Jul 2026), Credential ID: D6LAB93ECTMK. Skills: Python
- Python Project for Data Science — IBM (Issued Jul 2026), Credential ID: 5L9M8TT2SPHA. Skills: Python

EXPERIENCE

Data Engineer Intern, PT. Entropi Global Martech

Aug 2026 – Present

- Designed and built end-to-end data pipelines using Apache Airflow for orchestration, scheduling, and dependency management across multiple ETL workflows.
- Implemented Redis for caching and intermediate data staging to reduce pipeline latency and support near-real-time processing needs.
- Developed and maintained PostgreSQL database schemas for structured storage, including query optimization and data integrity checks across pipeline stages.
- Deployed and managed pipeline services on AWS, and containerized components using Docker for consistent, portable deployment.
- Integrated REST APIs to connect pipeline outputs with downstream applications and internal tools.
- Automated recurring data ingestion, transformation, and loading (ETL/ELT) processes, reducing manual intervention and improving pipeline reliability.
- Monitored pipeline health and implemented failure recovery/retry logic to ensure consistent, production-ready data delivery.

Data Analyst Intern, Talent Development / ITMS Nova, PT Pos Indonesia (Persero)

Jun 2025 – Sep 2025

- Performed data cleaning, validation, exploratory analysis, and reporting for HR/talent development datasets.
- Supported dashboard-ready data preparation and summarized survey insights for talent development needs.

- Conducted QA/alpha testing for ITMS Nova modules, including event creation, filters, pagination, Excel download, and career plan completeness checks.
- Documented findings and collaborated with users to improve data quality and pre-deployment system reliability.

Head of Coaching Division / General Affair, Telkom University Choir

Oct 2023 – Jan 2025

- Coordinated coaching activities, rehearsal support, member development, and event logistics for national and international competitions.
- Managed inventory and equipment records while supporting efficient operational coordination.

SELECTED PROJECTS

Cardiovascular Risk Classification & Streamlit Prototype

Python, Scikit-learn, XGBoost, SVM, MLP, SHAP, Streamlit

- Built a stacking classifier on clinical profile data with IQR/logical cleaning, StandardScaler, stratified 5-fold validation, threshold optimization, and metrics including Accuracy, Precision, Recall, F1-score, and ROC AUC; implemented a Streamlit prototype for local risk screening demonstration.

Vehicle Detection, Tracking & Counting — Buah Batu Traffic

YOLOv8, ByteTrack, OpenCV, Roboflow Supervision, Python

- Developed a CCTV-based computer vision pipeline for vehicle detection and multi-object tracking, including ROI counting, direction movement tracking, visual HUD, and CSV traffic event logging.

NLP Intent Classification & Out-of-Scope Detection

Python, TF-IDF, Scikit-learn, SGDClassifier, Model Evaluation

- Created an intent classification workflow with text preprocessing, feature extraction, model comparison, validation/testing reports, and threshold-based out-of-scope handling.

Production Efficiency & Power Risk Analytics

Python, Pandas, Visualization, Dashboard Concept

- Analyzed operational production and power-related data to identify high-risk and high-efficiency conditions, converted metrics into insights, and designed a dashboard concept for decision support.

Tesla Stock Time Series Forecasting

Python, ARIMA, ADF Test, ACF/PACF, RMSE

- Applied Box-Jenkins methodology with transformation, stationarity testing, ACF/PACF analysis, ARIMA modeling, forecasting, and RMSE-based evaluation.

Student Performance Exploratory Data Analysis

Python, Pandas, Matplotlib, Google Colab

- Conducted EDA to explore academic performance factors, visualize trends, analyze correlations, and generate insights for data-driven education decisions.

EDUCATION

Bachelor of Data Science — Telkom University, Faculty of Informatics, Bandung, Indonesia

GPA: 3.08 / 4.00

AWARDS & LANGUAGES

- 1st Place – Polyphony Category, 70th Habanera and Polyphony International Choral Competition, Torrevieja, Spain (2024)
- 2nd Place – Habanera Category, 70th Habanera and Polyphony International Choral Competition, Torrevieja, Spain (2024)
- 1st Place – Mixed Choir Category, 6th PENABUR International Choir Festival, Jakarta (2024)

Languages: Indonesian (Native), English (Professional Working Proficiency)
